## *A Warm Welcome to Formby Manor*

Welcome to Formby Manor; a lovely and luxurious care home located in the coastal town of Formby. Formby Manor is a purpose-built 76 bed 'new generation' care facility that has been expertly designed to meet all current CQC requirements and provides the highest standards of safety, comfort and care. The care home offers residential, nursing and specialist dementia care.

Internally, the attention to detail is impressive. The high specification and décor of Formby Manor have been carefully considered by an interior designer, creating stylish yet comfortable and practical spaces for residents to enjoy.

Arranged over three floors, the facilities at Formby Manor are exceptional, with each floor enjoying its own communal lounges and restaurants. All bedrooms boast en suite wet rooms, and there is also a spa assisted bathroom, hairdresser & nail bar. There are beautiful, mature gardens and outside seating areas at Formby Manor along with extensive terrace areas to the first floor.

## *Our Care Philosophy*

"To build and operate homes that celebrate the wonder of people and provides a quality of care that is delightful."

It is our aim to enable all of our residents to maintain the highest level of independence and achieve their full potential whatever that may be - physical, intellectual, emotional or social.

We believe this philosophy can be achieved by providing professional, person-centred care, nurturing each resident individually exploring and understanding their needs with the appreciation that care requirements may change and that the team will be responsive to those changing needs.

We create individual care plans for each resident, designed to specifically address all aspects of care provision, with a strong emphasis on holistic needs. Care plans are based around a comprehensive assessment of the resident prior to move in and incorporate various care options discussed and agreed with the resident and close family members, putting the resident at the centre of everything we do.
